Journey of the Universe is an epic story of cosmic, Earth, and human evolution inspired by the thought of Teilhard de Chardin. This dramatic film reimagines the universe story and reframes the human connection to the cosmos, as did Teilhard. *Journey* was written by Brian Thomas Swimme and Mary Evelyn Tucker, the vice-presidents of the American Teilhard Association. In addition to the film, the *Journey* project includes a book published by Yale University Press, an educational DVD series of interviews, and an online curriculum. All are available for purchase.
