A Discussion

Zoom meeting with breakout room discussions

Description: Both spirituality and psychology hold the power to lead the human person to health and wholeness by connecting to oneself, others, and the world. This presentation explores the integral link between the spiritual and psychological evolution of the human person and how both empower connection with an even greater reality: the Divine. Guided by Teilhard's spirituality and vision of a universe in process of Christification, Jung and Assagioli provide the psychological framework for exploring the emergent psyche.

Andrew will be referring to his paper, recently published in Teilhard Studies. If you wish to purchase a copy of this paper for $4.00 to prepare for this event, go to the Resources page of our website. Be sure to leave time for the mail to reach you.
